2. List the latest external stakeholders your institution reached/established communication & cooperation with in the framework of this project:

Date	Location	Activity ( <i>any communication/dissemination/exploitation activity relevant for the project</i> )	Stakeholders/TGs addressed/reached	Tools used	Verification source/s (please include links as appropriate)
27/10/22	Belgrade	Communication – presentation of STATUS project	2 partner institutions and 4 WEBIN staff members	PPT	

Comment:

An initial assessment of potential stakeholders to be contacted has been done. Communication actions with them will take place when it will be possible to share with them the project results.

3. Please present your suggestion how to improve communication and dissemination efforts in the project: Even if there are not completed results and/or activities to be shared, we can communicate on the work that it is going on as part of the project. For instance, in this phase, we could share some of the good practices collected as part of Result 1 as preparation to the dissemination of the final product. This will allow to keep the attention on the project even when there are not final results to be shared.

4. Indicate any risk related to communication and dissemination, requiring greater attention of project team: An irregular and weak communication could create difficulties in engaging target groups and stakeholders in the different project phases.

5. Fulfillment of comm. & dissemination-related indicators (*TO BE FILLED BY MAIN EVALUATOR*)

Domain	Indicator number and title	Target value	Current value (insert)
PROJECT	a) d) Number/type of media materials disbursed - internet and press articles, press releases, TV and radio appearances	a) min 1 media kit per project per country	0

## CONCLUSIONS & RECOMMENDATIONS (*ONLY FOR MAIN EVALUATOR*)

There has been very few communication and dissemination activities in the past period by the partners. Only 2 partner carried out internal dissemination activities. 4 partners have reported no communication or dissemination activities carried out.

Recommendations:

● STATUS ● 2021-1-RS01-KA220-HED-000032129 ●

- 1) Each partner is recommended to publish information about the project on their institutional websites and social network profiles.
- 2) Lead partner is recommended to create a web post about Result #1 once the result is ready for publishing, and all the partners are recommended to repost and share the web post.
- 3) All the partners are recommended to carry out internal dissemination events by the end of 2022.
- 4) Partners are requested to commit to data collection and reporting within the PQA monitoring activities.
- 5) Lead partner and NGOs participating in the project are recommended to prepare a generic media kit containing information about results once all the results are available for public.
